

Versatile and complete cutting for **display graphics**

WHAT IS? ELECTRO LIGHT POWER TRIM is the electri cutter designed to meet the broadest needs of sign makers and digital printing professionals. Thanks to the availability of sizes from 2 to 2.5 meters, it's suitable for the most common sizes of roll-fed materials used on any toner and inkjet wide format printing systems.

Main features

Electro Light Power Trim is equipped with a rotating blade cutting head in hardened steel, mounted on a square sliding bar, and a fixed stainless steel painted blade. The metal parts are painted with epoxy powders that guarantee maximum resistance to cuts and scrapes, while the cutting thickness up to 1.2 mm allows you to easily cardboard, plastics and PVC banners. The standard version includes a stand for ground positioning with adjustable feet, a container for the collection of waste and a lamp to lighting the cutting area.
