

Kompac Kwik Finish 32

UV/Aqueous Spot/Flood Coating & Priming System

**FLOOD
OR
SPOT**

22" x 32"
(560mm x 800mm)

simplifying **the coating business**

- Apply UV, Aqueous, Specialty Coatings & Primers
- Flood & Spot Coat...including Textured Spot & Spot Not
- Less Than 5 Minute Coating Change & Clean Up
- Stream Feeder with Pallet/Dolly Loading
- Two Cylinder Design (Easy to Set Up & Change Jobs)
- Circumferential & Lateral Registration
- Touch Screen Control Panel
- Automatic Receding Pallet/Dolly Stacker
- Optional IR Dryer
- Dedicated Coating Support & One Stop Shopping

built Kompac tough for long life

One of a kind coating & curing solution

Kompac Technologies, LLC is the leading manufacturer and supplier of an extensive line of products to satisfy the needs of the graphic arts industry, worldwide!

Made in the USA - Manufactured & distributed from our facility in Somerville, NJ our extensive line of coating products include: offline UV/ aqueous coating equipment, IR dryers, stackers, feeders, solution vacuum, UV/aqueous coatings & environmentally friendly cleaners. In addition, Kompac offers a complete line of coating blankets, packing, mylar plates and UV/IR replacement bulbs.

The Kompac Kwik Finish is an exciting offline spot/flood coating and priming system, providing a quick and easy way to apply UV, aqueous, primer/ sapphire & specialty coatings to a wide variety of papers and substrates.

From very thin paper to plastics, card stock & lenticular; whether digital output or offset, each job will have the visual appeal, lasting durability, protection and rub resistant finish that your customers expect. Flood or spot coat, the **Kompac Kwik Finish** is the most flexible, cost effective coating system on the market today!

KOMPAC COATING UNIT

- “Patented” Kompac coating unit provides on-the-fly coating control & adjustment.
- Peristaltic pump and coating sensor automatically detects coating level & replenishes as needed.
- Eliminates the need for recirculation. (Recirculation contaminates coating resulting in poor gloss & wasted coating)
- 5 minute coating change & clean-up!

PERFECT FOR

- Folding Carton Printers
- Package Printers
- Priming Indigo Substrates
- Xeikon & other larger digital presses
- Large offset printers

KOMPAC QUALITY

- Made in the USA
- Built Kompac tough for long life & productivity
- Celebrating over 35 years in business
- Backed by our 1 year limited warranty

GREAT SUPPORT

- Kompac Complete line of coating & consumables
- One stop shopping
- Ask the “Koating Guru” Our coating experts are available 7 days a week to support your coating needs!
- koatingguru@kompactech.com

www.kompactech.com

AUTOMATED DELIVERY

- Stacks onto pallets/dollies!
- No “hand” stacking eliminates errors in sequential data.
- Built-in acceleration conveyor for larger sheet sizes.

KOMPAC KWIK IR (OPTIONAL)

- Powerful short wave Infrared Dryer quickly dries aqueous coatings & primers.
- Increases “wet-out” on high UV gloss jobs improving quality.
- Moveable for specific job requirements.

AUTOMATIC STREAM FEEDER

- Accepts pallets/dollies right from your digital or offset press!
- No “hand” loading perfect for variable data or sequential jobs.
- Handles a wide variety of stock weights & substrates. Thin substrates...No problem!
- Accurate registration of every sheet for spot & spot-not coating.
- Automatic digital double sheet detector.

let kompac put you in the coating business

Sheets Per Hour:	up to 5500	up to 5500
Stock Weight:	3pt. to 24pt.	60g/m ² to 600g/m ²
Feeder/Stacker Pile Height:	33"	838mm
UV Lamp Controls:	125/200/300w	125/200/300w
Dimensions:	6' x 20'	1.8m x 6m

MARKET DEMAND HAS INTENSIFIED

"The demand for UV Coating has intensified in the past decade, especially in the digital environment. The result is a product that looks great but is also protected from the elements, and has extra durability for repeat handling. Kompac Coating Systems will add depth and appeal to printed pieces. The colors appear brighter and more vivid with a rub resistant finish." - Tom Hayes, President of Kompac Technologies, LLC

DIGITAL OUTPUT, NO PROBLEM!

The **Kompac Kwik Finish** is proven successful on most digital print engines.

HP Indigo users - the ability to Sapphire treat your own HP Indigo paper & plastic will save you up to 70% on pretreated substrates.

Xerox users - the independent coater & conveyor controls eliminate problems inherent with toner re-wetting.

The **Kompac Kwik Finish** is perfect for:

- **HP Indigo 10000/30000**
- **Xerox**
- **Konica Minolta**
- **Océ**
- **Presstek DI**
- **Xeikon**
- **Ricoh**
- **Kodak**
- **Canon**
- **KBA**
- **FujiFilm & more**
